

## Restoration Services

- **Heritage photographs:** Have your treasured photographs restored to original condition. You will be amazed at the quality of the digital copy and the beautiful rich colours that are returned to the image
- **Family treasures:** Combine images, alter colour, tone and shape. Composite several into montage images for wall display (this is ideal for family memories, heirloom images and family tree presentations)
- **Wedding photos:** Consider having your wedding photos revitalised into your own digitised wedding album or DVD movie presentation. Digitised alterations and completely digitised album pages are possible.
- **Obligation free quote.**
- **Previews:** A preview of your restoration will be emailed or viewed in my studio before proceeding with final enlargement on photographic archival emulsion or CD/CVD production.

## Question you may have.

**What is a photograph?** A photographic print is nothing more than a collection of minerals and chemicals that react to light .

### How long should my photograph last?

Photographs aren't made to last forever and any number of factors can cause your images to fade, discolour, stain, crack, peel or fall apart. It is practically inevitable that some of your cherished photographs will eventually fall into disrepair.

### What can I do if my photograph is damaged?

If disaster strikes - modern technology has made it affordable to restore your priceless photos. Images can even be patched back together and restored to their original detail.

### Will you be able to restore my photograph?

I have repaired stained, spotted, torn, cracked, bleached and faded images like yours every day. I charge through an easy 3 category system to make it easy for you to decide how much restoration might be realistic for your photograph.

**Will my photograph be damaged in the restoration process?** Using digital technology allows restoration on a digital copy in the computer. Your original photograph will remain untouched. The final digital image will last a lifetime - even longer than the original.

**Every Restoration is Unique at Lifetime Photography.** Your photo is unique and its restoration will be given my personal commitment.
